Bun Warmer

BW-450

- Interior and exterior constructed of heavy stainless steel
- Includes removable stainless steel pan and bun rack
- 32 standard size bun capacity
- Provides gentle warming heat for buns
- Measures 9-3/4"H x 23-1/2"W x 21-1/2"D
- 120V, 450W, 3.75 amps

ADCRAFT®

NEMA 5-15 PLUG
120V/15 Amps

Protected by Admiral Craft Equipment Corporation's one year limited warranty. Should your product fail under normal use, it will be repaired or replaced up to one year from date of purchase.

The more you look, the better we look.

Stainless Steel Coffee Brewer

Cafetera de Acero Inoxidable

CBS-2

- All parts manufactured of heavy duty stainless steel
Todas las partes manufacturadas de acero inoxidable de alta calidad
- Only 8 minutes to brew a full pot of coffee
Solo 8 minutos para preparar una jarra llena de café
- Two independent switches for warming and brewing
Dos interruptores independientes para calefacción y preparación
- Brewing indicator alerts you when brewing cycle is complete
Luz indicadora alerta cuando el ciclo de preparación es completo
- Heating plates ensure optimal temperature is maintained for extended periods
Placas calentadoras que garantizan una óptima temperatura son mantenidas por largos periodos
- Accepts standard filters and decanters
Acepta filtros y jarras standard
- Narrow space saving design
Diseño angosto que ahorra espacio
- 120V, 50-60Hz, 1650W, 13.75 Amps
- ETL Listed, ETL Sanitation

ADCRAFT®

NEMA 5-15 PLUG
120V/15 Amps

Protected by Admiral Craft Equipment Corporation's one year limited warranty. Should your product fail under normal use, it will be repaired or replaced up to one year from date of purchase.

Pizza/Snack Oven

Horno de Pizza/Antojito

CK-2

- Stainless Steel exterior construction
Construcción de acero inoxidable
- 13-1/2" rack accomodates 12" diameter products 2-1/2" high
La bandeja de 13-1/2" pulgadas accomoda productos de 12" por 2-1/2" pulgadas
- Upper and lower heating elements
Elementos de hornear en la parte superior y debajo
- 450° pre-set thermostat
Solo cambie el termostato a 450°
- On/off operation controlled by a 30 minute timer
El uso de el horno esta controlado por un temporizador de 30 minutos
- Convenient crumb tray for easy cleanup
La bandeja para migajas ficilita la limpieza
- 120V, 1450W, 12 Amps
- UL

ADCRAFT®

NEMA 5-15 PLUG
120V/15 Amps

Protected by Admiral Craft Equipment Corporation's one year limited warranty. Should your product fail under normal use, it will be repaired or replaced up to one year from date of purchase.

The more you look, the better we look.

Half Size Convection Oven

COH-2670W

- All parts constructed of heavy duty stainless steel
- Small footprint design perfect for countertops
- 120° to 570°F temperature range
- Double wall glass door
- Manual control knobs
- 120 minute timer
- Handles four half size sheet pans
- 3" spacing between shelves
- Unit exterior dimensions: 21.75"H x 23.5"W x 21"D
- 220V, 60hz, 2670W, 12 Amps
- NSF

ADCRAFT®

NEMA 6-20 PLUG
208V, 240V/15 Amps

Protected by Admiral Craft Equipment Corporation's one year limited warranty. Should your product fail under normal use, it will be repaired or replaced up to one year from date of purchase.

The more you look, the better we look.

Professional Half Size Convection Oven

COH-3100WPRO

- All parts constructed of heavy duty stainless steel
- Small footprint design perfect for countertops
- 120° to 500°F temperature range
- Features a grill/broil function (570°F)
- Cook and hold feature keeps food warm up to 180 minutes
- Handles four half size sheet pans
- 3.5" spacing between shelves
- Double wall glass door
- Manual control knobs
- 60 minute timer
- Interior light
- Unit exterior dimensions: 22"H x 31"W x 21.5"D
- 220V, 60hz, 3100W, 14 Amps
- NSF

Specifications

Description

Adcraft's Countertop Warmers and Cookers are constructed with a heavy duty stainless steel exterior and have a stainless steel interior liner made out of 20 gauge 18/8 stainless steel. Designed with a steel element support that stabilizes the heating elements giving off an even heat distribution with no hot spots. These units maintain food temperatures in excess of 140°F to meet the requirements for food safety. Easy to clean, lightweight and they each come with an adjustable thermostat knob. The FW-1500W/C has a thermostatic range that reaches 212°F making it great for defrosting and slow cooking meats. These units will preheat quickly to 180°F in around 12 minutes. They are 120V and come with a 5' power cord with a NEMA 5-15 plug. These units are UL and NSF approved and are backed by Adcraft's 18 month warranty.

Construction

- Commercial quality heavy duty stainless steel construction
- Interior well is constructed of heavy duty 20 gauge 18/8 stainless steel
- Steel element support stabilizes heating elements and reflects heat toward food providing even heat distribution
- 6.5" deep well can accommodate food pans up to 4" deep

Operation

- Adjustable heating control allows for keeping food warm at a desired temperature for an extended period of time
- Maintains food temperature in excess of 140°F
- Adjustable temperature range up to 212°F on the FW-1500W/C model allows to be used as a slow cooker also

Electrical

- 5' power cord with NEMA 5-15 plug

Accessories (Sold Separately)

Specifications

Description

Adcraft's manual gravity feed slicers are constructed of high quality anodized aluminum which makes them extremely durable and easy to clean. Perfect for slicing vegetables and lunch meats. Their small footprint and compact design make them ideal for delis, sub shops and small restaurants. Each model comes with a removable carriage for easy cleanup and a built in sharpener to always ensure a sharp edge for every slice. The blades have a permanently attached ring guard around them for safety. The motors are belt driven and each unit is 110V with a NEMA 5-15 plug. These items are all ETL Certified and backed by Adcraft's one year replace or repair warranty policy.

Construction

- Constructed of high quality anodized aluminum
- Stainless steel blade lasts long and is easy to sharpen
- Top mounted metal sharpener comes with two grinding stones
- Removable carriage for easy cleaning
- Permanently attached ring guard for safe operating
- Non slip rubber feet keeps the slicer steady and in place

Operation

- Slicers blades are belt driven for a smooth and effortless cut
- Carriage ball bearings are lubricated for quiet operation
- Adjustable knob allows for precise slicing up to 1/2" thick
- On/Off buttons are enclosed to keep out moisture

Electrical

- Electrical components are enclosed below the unit keeping them clear of food and other debris
- 110V electrical connection
- 4' power cord with NEMA 5-15 plug

Usage

- Light duty slicers are ideal for low volume applications with less than 1 hour of slicing per day. These items are not meant for cutting raw or frozen meat and/or cheese.
- Medium duty slicer is ideal for several hours of slicing per day. Slicing raw or frozen meat is not recommended for this item. A maximum of 30 minutes a day of cheese slicing is recommended for this item.

Description

Adcraft's Adjustable Heated Plate Lowerator is a versatile item that can adjust to hold a variety of plate diameters for any occasion. Two field adjustable tubes enclosed in a stainless steel heated cabinet that can hold up to 80 plates at one time. The adjustable tubes can hold plates up to 8"-12" in diameter and will keep them pleasantly warm to help keep food hotter for a longer period of time. 4" casters allow for easy mobility and transporting. The clean stainless steel enclosed cabinet make this a perfect item for front and back of the house operations. This unit is backed by Adcraft's one year replace or repair warranty.

Construction

- Stainless steel frame and construction
- Two adjustable dish dispensing tubes with support rack that can hold plates 8"-12" in diameter
- 4" swivel casters for mobility
- Bakelite handle is cool-to-touch and allows for easy moving

Heated Cabinet

- Single heating element goes throughout the whole cabinet to keep the plates constantly warm while in use
- Interior fan motor circulates the warm air inside the cabinet
- Adjustable thermostat ranges from 85°F - 185°F

Tube Dispensers

- Two stainless steel tubes can hold up to 40 plates each at one time
- Tubes are adjustable and can hold plates from 8"-12" in diameter
- Special support design prevents the plates from sticking in the down position

Electrical

- 120V, 1260W, 10.5 Amps
- 6' power cord with NEMA 5-15 plug

Standard Accessories

- Includes 2 covers that fit over plate holes

Description

Adcraft's "Redhead" electric glass washer is made of heavy duty construction with a powerful 1/3 HP motor. It easily removes lipstick and other stains on the glass surface. Quick and easy to install and requires no special plumbing or electrical hook-ups to use. The unit runs off a 115V circuit that draws only 4.3 Amps. Comes complete with four 7" brushes and one 8.75" center brush. Overall dimensions are 19"H x 8.75"W x 15.75"D. CE. This item is backed by Adcraft's 1 year limited warranty.

Base Construction

- Base is made of heavy duty stainless steel with rubber feet for stability
- Brass bearings and nylon gears are inside the base
- Removable rubber strip keeps water out of the base and allows for easy access to gears when needed

Motor

- Powerful 1/3 Horsepower motor mounted up high to keep away from water
- Internal thermal overload in motor prevents overheating if the motor temperature exceeds 150°F
- Front mounted On/Off switch for easy operation when in use

Electrical

- 115V, 1/3 HP, 4.3 Amps
- 7' power cord with NEMA 5-15 plug

Brushes

- Brushes are included with the glass washer and are interchangeable with all other major brand's brushes
- One center brush measures 8.75" tall overall
- Four side brushes measure 7" tall overall

Construction

- Body and lids are constructed of heavy duty stainless steel
- Full view tempered glass on both the operator's and customer's side for merchandising
- Separate hot dog and bun compartment allows the user to control the level of steaming on each side
- Top loading design allows for easy and safe access to your hot dogs and buns

Capacity

- Steams and cooks up to 100 standard sized hot dogs at one time
- Hot dog compartment is 6"W x 12"D x 8"H
- The bun compartment is 11"W x 12"D x 8"H and can hold 36-48 buns
- Water pan holds up to 6 quarts of water for all day steaming

Operation

- Heating system can cook the hot dogs in 20 minutes
- Temperature range of 80°F-185°F
- Humidity control system in bun compartment keeps buns fresh while your hot dogs steam

Electrical

- 120V, 1200W, 10 Amps
- 4' power cord with NEMA 5-15 plug

Features

- Bright and attractive graphics on both sides help get impulse buys
- Front drain and plug for easy disposal of water
- Bakelite knobs on top of the lids for safe opening
- Lighted power switch

Specifications

Description

Adcraft's Infrared Display Warmer is constructed of heavy duty stainless steel. This display warmer can be used in the kitchen as a fried food holding station and in the front of the house to keep hot food on display for an extended period of time as a self serve station. Instead of bulbs, this item uses heating elements that give off a more uniform heat distribution. Polished stainless steel reflectors located above the heating elements help radiate the heat down towards the food zone below. The raised base keeps the food pan off the work area preventing it from getting hot and allows for easy accessibility of the food from all three sides. This display warmer comes complete with a 2" deep full size food pan with removable stainless steel perforated liner for drainage of excess grease. This unit is backed by Adcraft's 1 year limited warranty.

Construction

- Constructed of heavy duty stainless steel
- Fully welded for strong durability
- Raised base keeps food pan off the work area
- Accessible from three sides

Heating

- Heating elements run through the entire top of the unit giving off a more uniform heat distribution eliminating hot and cold spots
- Polished stainless steel reflectors above the heating elements help radiate heat down towards the food zone
- On/Off switch located on the front of the unit away from heat zone

Electrical

- 120V, 940W, 7.8 Amps
- 6' power cord with NEMA 5-15 plug

Model Features

- Includes 2" deep full size food pan with perforated liner for excess grease drainage
- 40 watt light for greater illumination of products

Description

Adcraft's Fresh Shot Countertop Steamer is perfect for keeping tortillas, pitas, bread and so much more hot and fresh at the push of a button. Great for use in any kitchen with its small footprint and compact size. This steamer accommodates one half-size pan. The easy to use push button operation provides a quick shot of heat in seconds that instantly heats up your food. The exterior of the unit is constructed of stainless steel and has a black powder coated top. The interior well is constructed of cast aluminum and is easy to clean. The self contained water reservoir allows for easy filling and disposing of water with no water line hook-up needed. This unit includes a stainless steel perforated half pan, an on/off rocker switch and comes with a 4' power cord with a NEMA 5-15 plug. This item is backed by Adcraft's 1 year limited warranty.

Construction

- Exterior is constructed of heavy duty stainless steel
- Powder coated top
- Cast aluminum well
- Water reservoir holds up to 3 quarts of water

Operation

- Simple one push button that blasts steam in excess of 212°F that rejuvenates and heats up cold, pre-cooked food inside the well.
- Illuminated On/Off rocker switch located on the front of the unit lets you know when the unit is in operation.
- Pre-heat in only 30 minutes.

Electrical

- 120V, 1800W, 15 Amps
- 4' power cord with NEMA 5-15 plug

Model Features

- Includes half size perforated food pan
- Bakelite handle that is cool to touch
- Non-slip rubber feet for stability

Specifications

Description

Adcraft's stainless steel electric salamanders are great for cooking, grilling, re-heating and holding foods. The adjustable upper housing has powerful, independently controlled heating element(s) that will both cook and re-heat food quickly when needed. Infinite control dial(s) allow you to have precise control over how long the heating period lasts. The removable drip tray and cooking grate allow for easy cleaning. These salamanders can be used on the countertop or mounted to the wall with their special wall mounting bracket system (sold separately). These units are 240V and come with a 4' long power cord that has a NEMA 6-20P plug. This unit is backed by Adcraft's 1 year warranty.

Construction

- Commercial quality heavy duty stainless steel construction
- Stainless steel upper housing has a vertical movement of 8" to 2.75"
- Polished reflectors above the heating element(s) to help radiate heat down towards the cooking area
- Removable stainless steel drip tray and cooking grate
- Cool-to-touch bakelite handle for safe adjusting of the upper housing
- Non-slip rubber feet for stability when using on the countertop

Operation

- Adjustable vertical movement upper housing adjusts the intensity of the heat given off by the heating element(s)
- Infinite control dial allows you to precisely control how long the heating period lasts

Electrical

- 240V, Single phase
- 4' power cord with NEMA 6-20plug
- Can be used with a plug or hardwired
- Plug and hardwire are both located on the bottom lower right of the unit

Mounting

- Optional wall mounting bracket sold separately
- SAL-2800W/MB and SAL-4000W/MB

Specifications

Description

Adcraft's stainless steel cheesemelters are perfect for quickly melting cheese, toasting nachos or sandwiches and finishing. Their small footprint and compact design make them perfect for kitchens with limited space. These units use a metal sheath heating element that will quickly warm, toast and melt to perfection. The body is insulated to prevent heat from escaping the melting chamber. The infinite switch gives you precise control over the amount of heat given off. It's multi-position food rack allows you to set the food at the perfect distance away from the heat source. A 15 minute timer is standard on the CHM-1200W model. These units are and backed by Adcraft's 1 year warranty.

Construction

- Heavy duty stainless steel construction
- Metal sheath heating element heats up quickly and distributes the heat evenly down towards the food
- Insulated body to prevent heat loss inside the melting chamber
- Built in 4 slot multi-position racking system allows for the perfect distance away from the heat source for all types of food
- Removable food grid with 6" cool-to-touch bakelite handles
- Removable stainless steel crumb tray for easy cleaning
- Non-slip rubber feet for stability

Operation

- Infinite control dial allows you to precisely control how long the heating period lasts
- 15 minute timer comes standard on the CHM-1200W model
- Indicator light lets you know when element is heating

Electrical

- CHM-1200W is 120V and has a NEMA 5-15 plug
- CHM-2400W and CHM-4350W are 240V and have a NEMA 6-20 plug
- 4' long power cord standard on all models

Specifications

Description

Adcraft's chamber vacuum packaging machine is ideal for all of your preserving, marinading, pickling and seasoning needs. This powerful tabletop chamber vacuum packaging machine works well with liquids and liquid-rich foods. It sucks the air out of the entire chamber when sealing, not just the bag itself. This means the air pressure is equalized both inside and outside of the bag, keeping liquids in and ensuring a superior seal every time. Constructed with a stainless steel body, this unit has a digital front control display that makes it easy to use. The smoky-clear lid lets you see and monitor the vacuum process. A powerful 1/2 hp oil pump provides up to 29.5" Hg of suction. The 11" wide sealing bar provides maximum results and long lasting usage. It also comes with filler plates to use when sealing smaller batches. 110V, 370W, 3 amps and a detachable 9' long power cord with a NEMA 5-15 plug. This unit is CE Certified and backed by Adcraft's 1 year replace or repair warranty.

Construction

- Body is constructed of polished stainless steel
- Interior chamber has a stainless steel liner
- Smoky-clear lid with lock that opens up 45°
- Easy to use front control panel with digital display
- Separate on/off power switch on the side of the unit
- Rubber feet for stability

Sealing Chamber

- Can apply up to 29.5" Hg of suction per seal
- 11" wide sealing bar
- Interior chamber measures 15.25"D x 11.5"W x 2.75"H
- Comes with two filler plates to use with smaller batches

Electrical

- 1/4 HP oil pump
- 110V, 370W, 3 Amps
- Detachable 9' power cord with NEMA 5-15 plug

Vacuum Packaging Machine

Specifications

Description

Sous Vide is a cooking method in which the food is vacuum sealed in a plastic pouch and then cooked in a water bath at a pre-set temperature. This provides more control with consistent results every time. Adcraft's Sous Vide immersion circulator will help you achieve that perfect texture, taste and tenderness for all meats, seafood and vegetables. Cook food to the desired temperature safely and never overcook your food again. Our Sous Vide immersion circulator features a digital LED temperature display that accurately gauges water temperature to within 0.1 degree. Cooking different types of food is easy with its different pump speed settings. This unit allows you to program up to three cooking settings at a time. This unit is CE Certified and backed by Adcraft's 1 year replace or repair warranty.

Construction

- Stainless steel housing
- Easy to read digital LED temperature display

Operation

- Temperature stability to 0.1°F (0.06°C) for precise, consistent results every time
- Three programmable settings for ease of use
- Two pump speeds for controlled cooking
- Accurate LED temperature (Fahrenheit and Celsius) display for precise cooking

Electrical

- 120V, 1200W, 10 Amps
- 6' power cord with NEMA 5-15 plug

Specifications

Description

Adcraft's new open well steam tables are constructed of stainless steel with galvanized steel wells and adjustable legs. Available in three popular sizes; 2, 3 and 4 bay, these units are built to handle the toughest of kitchen environments. Each steam table features individually controlled 750W heating elements with their own dedicated control switch. The 8" deep wells are designed to fit full size spillage pans (not included). An adjustable stainless steel undershelf allows for storage. Each size comes with a 8" x 1/2" polycarbonate cutting board that runs the whole width of the unit and is removable for easy cleaning. All units come with Adcraft's 1 year limited warranty.

Construction

- Heavy duty stainless steel body
- Die-stamped beading openings that measure 12" x 20"
- 8" x 1/2" polycarbonate cutting board that runs the whole width of the unit and is removable for easy cleaning
- Galvanized legs with adjustable bullet ends
- Adjustable stainless steel undershelf for storage

Controls

- Individually controlled infinite switches for each compartment
- Red indicator light that stays on while being used to let user know which compartments are heating

Heat Compartments

- 8" deep open wells that are lined with galvanized steel
- Each heat compartment is fully insulated on all four sides and bottom with 1" thick insulation

Electrical

- Each compartment has its own individually controlled 750W element
- 6' power cord with plug extends out from underneath the unit
- 2 and 3 bay models are 120V
- 4 bay model is 208V/240V

Specifications

Description

Adcraft's electric water bath steam table is constructed of all stainless steel. All four top openings fit a 12" x 20" full size food pan with no additional water pans needed. The stainless steel water pan is fully welded and has a recessed well that houses the immersed heating element. Thermostatic temperature dial allows for accurate food holding temperature. Comes standard with adjustable stainless steel legs, undershelf and a 3/4" drainage pipe for easy removal of water. The steam table is customized with the optional stainless steel tray rack and optional 9" wide polycarbonate cutting board shelf. This unit ships knocked down and assembly is required. This unit is backed by Adcraft's 1 year limited warranty.

Construction

- Heavy duty stainless steel body and well
- 4 top openings that fit 12" x 20" full size food pans
- Stainless steel legs with adjustable bullet ends
- Stainless steel undershelf for storage

Water Pan

- Fully welded 304 stainless steel construction
- Recessed well with 3000W immersed heating element
- 3/4" drain for quick and easy draining

Electrical

- Single 3000W heating element that runs throughout the bottom of the water well
- Thermostatic control dial
- 5' power cord with NEMA 6-20 plug extends out from underneath the unit
- Low water cutoff sensor with reset button
- 208V/240V, 3000W, 12.5 Amps

Available Options & Accessories

- EST-240/TH - Stainless steel tray holder

Specifications

Description

Adcraft's non-insulated heater proofer cabinet is ideal for all your food holding and proofing needs. Constructed of non-corrosive aluminum throughout the cabinet that allows you to hold prepared foods at proper serving temperatures for extended periods of time. The air baffle and circulating air blower provide even heat distribution throughout the cabinet. A removable control drawer with LED thermostat gives you complete control over the operating temperature and humidity range and doesn't require opening the door to use. This item comes standard with 5" heavy duty castors and a clear lexon door with aluminum frame. It ships knocked down and is easy to assemble (Tools and hardware kit included). The overall dimensions of this unit are 21"W x 31.25"D x 67.25"H. The cabinet dimensions are 18"W x 26.25"D x 52.75"H which will allow you to fit 36-18" x 26" pans (sold separately). The heating temperature range for this item is 80°F - 185°F and a humidity proofing range of 30% - 100%. It is CE certified and is backed by Adcraft's 1 year replace or repair warranty.

Construction

- Cabinet made of non-corrosive aluminum
- Clear lexon door with aluminum frame
- Ships knocked down and easy to assemble
- 5" heavy duty swivel castors with brakes
- Fits 36 - 18" x 26" pans (not included)

Control Drawer

- Removable control drawer
- Air baffle and circulating air blower provides even heat throughout the cabinet
- Easy to use controls that don't require opening the door
- Flip switch makes it easy to switch from heat to proof modes. Temperature and humidity control dials allow for accurate settings.
- Easy to read LED thermostat
- 120V, 1800W, 15 Amps, NEMA 5-15 plug 

Door

- Clear lexon door with anodized aluminum frame that will not dull
- Door lifts off for easy cleaning and accessibility

ACE Equipment One Year Limited Warranty

Admiral Craft Equipment Corp. (ACE) warrants its equipment against defects in materials and workmanship, subject to the following conditions:

ACE Equipment is warranted for one year, effective from the date of purchase by the original owner. A copy of the original receipt or other proof of purchase is required to obtain warranty coverage. This warranty applies to the original owner only, and is not assignable.

Should any product fail to function in its intended manner under normal use within the limits defined in this warranty, at ACE's discretion, such product will be repaired, replaced with a refurbished unit, or replaced with a new unit by ACE, after defective unit has been inspected and defect has been confirmed. ACE does not assume any liability for extended delays in replacing any item beyond its control. This warranty does not apply to rubber and non-metallic synthetic parts that may need to be replaced due to normal usage, wear or lack of preventative maintenance.

This warranty covers products shipped into the 48 contiguous United States, Hawaii, and metropolitan areas of Alaska and Canada. Warranty coverage on products used outside the 48 contiguous United States, Hawaii and metropolitan areas of Alaska and Canada may vary. Contact ACE for details at 1-800-223-7750

The following conditions are not covered by warranty:

- Equipment failure relating to improper installation, improper utility connection or supply and problems due to improper ventilation.
- Equipment that has not properly been maintained, damage from improper cleaning, and water damage to controls.
- Equipment that has not been used in an appropriate manner, or has been subject to misuse, neglect, abuse, accident, alteration, negligence, damage during transit, delivery or installation, fire, flood, riot, or act of God.
- Equipment that has the model number or serial number removed or altered.
- Equipment on which the security seal has been broken.

If the equipment has been changed, altered, modified, or repaired without express written permission from ACE, then the manufacturer shall not be liable for any damages to any person or to any property, which may result from the use of this equipment thereafter.

This equipment is intended for commercial use only and this warranty is void if equipment is used in other than a commercial application.

For warranty and non-warranty related issues, technical support, purchase replacement parts and warranty registration visit www.admiralcraft.com. Please have your model number, serial number and proof of purchase ready. It is not necessary to contact the place where you originally purchased your product from.

“THE FOREGOING WARRANTY IS IN LIEU OF ANY AND ALL WARRANTIES EXPRESSED OR IMPLIED INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSES AND CONSTITUTES THE ENTIRE LIABILITY OF ACE. IN NO EVENT DOES THE LIMITED WARRANTY EXTEND BEYOND THE TERMS STATED HEREIN.”
